ABOUT THE PROJECT

MAPLE has been designed to support VET learners, VET educators, small business owners and stakeholdersto learn & incorporate eco-friendly solutions in their projects, start-ups and personal life. Also, the result will serve as ateaching tool to learn and raise awaresness about existing green technological solutions across participating countries,thishelps innovators to consider climate issues in mind during innovation.

PRIORITIES

- Environment and fight against climate change
- Contributing to innovation in vocational education and training
- Increasing the flexibility of opportunities in vocational education and training

PARTNERS

- Life Learning Development LLD.e.V. - Germany **(APPLICANT ORGANIZATION)**
- OSENGO- France
- Mine Vaganti NGO- Italy
- Afridat UG (Haftungsbeschrankt)- Germany

OUTPUTS

Creates an open-source digital tool for effective teaching and demonstration of greentech solutions use cases in partner'scountries useful for VET institutions and business institutions.

VET institutions can use this tool to teach in their classroom's useful methods business contributes to fight against climatechange;

Individuals willing to start-up a business will consider starting up an eco-friendly business based on their awareness onreal life use cases document on the e-blog

Atleast 20 VET educators/learners is gathered in a pilot session to share & exchange information and best practices aboutgreen technological solutions.
